

How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS).

This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

How much will New Zealand invest in a new energy project?

Photo: Christopher Luxon /X Prime Minister Christopher Luxon announced during his visit to Niue and in recognition of the 50th anniversary, that New Zealand will invest NZ\$20.5 million in a new, large-scale energy project, which will enable Niue to generate 80 percent of its electricity from renewable sources.

When is Niue's New Power Station launching?

The Ministry of Infrastructure celebrated the soft launch of Niue's New Power Station on the 7th November 2024.

The launch marks a critical milestone in Niue's journey to strengthen and modernize its energy infrastructure.

What does the Minister of Infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon.

Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being."

This achievement would not have been possible without the support of our regional partners."

The partnership will integrate a 250 kilowatt-hour TESS unit, synchronised with IPCL's system, to support the company's renewable energy goals.
