

Solaire 48v 20 watts

Power your home, cabin, or business with up to 10,000W of clean energy using dual 5000W inverters, a 20.48kWh LiFePO4 battery, and 5400W solar panels.

Built for off-grid resilience,...

The principal risk in an electrical installation is to have a section of cable that is not adapted.

In case of overcurrent or short circuit, overheating occurs and a section...

The battery is the most expensive element and has the shortest life in a solar installation. It is fragile and requires all your attention...

Optimize your solar system with the MPPT charge controller.

Control of current and voltage for maximum performance.

Regulators of charge solar Ensure that your solar panels capture each parcel of energy thanks to our solar charge regulators MPPT and...

Offer your house or chalet a real energy autonomy with this 4680W 48V kit, designed for a stable, reliable and extendable network.

Benefit from...

145Watts at 12V to 1160Watts at 48V 10A to 20A - 12/24/48V Tension PV max.: 75V or 100V MPPT 75/10, 75/15, 100/15 and 100/20 Localization ultra rapid...

Discover our 48V 500W solar panel, ideal to maximize the efficiency of your solar installations.

Benefit from a renewable energy source for your domestic needs...

Solar panels Collection of the best solar panels in Canada. Discover our carefully selected solar panels...

Video of configuration Manual of parameters Manual ING Fiche technique ESP Logiciel Chargeur onduleur 5000VA 48V (4000W), with 80A MPPT special for solar kits...

Solaris, expert in solar autonomy for more than 20 years!

Implanted in the Lyon region since 2002, the company SOLARIS is specialized in energy...

With a storage capacity of 20kWh extendable up to 40kWh, this system is capable of responding to your energy needs, whatever they are...

60A PWM Regulator of Charge Solar 12V/24V/48V Auto, Controller of Charge Solar 60A for Solar Panel Affichage LCD Port USB, 12V/24V/48V Regulator Solar Panel...

Grace to the double MPPT (Maximum Power Point Tracking), this inverter improves the energy efficiency by optimizing the use of solar energy.

It takes charge up to 8000W...
